ABOUT ME

Let's face it, I love photography, that's why my hobby became a passion and later a business. After 20 years behind the lens all I know is, I love my job, I like meeting new people, and I enjoy going to new places. Life is interesting; so let's shoot it! I work as a DP, director, camera operator, editor, or one-man band. With almost 20 years of experience in broadcast, commercial, industrial, educational, and informational production I have become familiar with several formats from 35mm to HD and 16mm to DV. My company owns many formats including P2, DVCam, XDCam - SxS and BetaSP. We have full camera packages with a 1-ton lighting package that has Kinos and HMI's available for additional charges.

We have portable editing systems for in-field editing, where distance learning, documentary, reality, and indie filmmakers have used this feature to assist them in their production process. Some of my broadcast customers include: A&E, BBC, CNN, CBS, Discovery Communications, ESPN, Fuel Network, HGTV, History Channel, MTV Networks and National Geographic. Let me know how I can help you on your next project.
